## Livestock Enterprise Budgets for Iowa - 2016

File B1-21

This publication contains estimates of production costs for common livestock enterprises in Iowa. Estimates are intended to reflect average or aboveaverage levels of management using common types of technology. Input prices reflect expected average price levels during the year.

Data were drawn from farm record summaries, feed consumption research, and price projections and are intended to be used for planning purposes only. For individual farms, expected costs and input requirements based on past results should be substituted whenever possible.

Each budget contains estimates of the following types of costs:

Fixed Costs. Costs that will occur regardless of the level of production each year. They generally include such things as depreciation, interest, taxes, and insurance on facilities, breeding livestock, and livestock equipment and facilities. Depreciation is assumed to be 8 percent of the original value of facilities and equipment annually. Interest averages one-half of the original value of facilities over its lifetime, or 5 percent annually. Taxes and insurance add 1 percent for a total of 14 percent of the original investment annually for fixed costs.

Variable Costs. Costs that vary according to the level of production. Interest is calculated on feed and other variable costs for one-half of the production period.

## IOWA STATE UNIVERSITY Extension and Outreach

The budgets in this publication are based on the following price assumptions for inputs:

|  | Price | Units |
| :--- | ---: | :--- |
| Corn | $\$ 3.60$ | bushel |
| Corn silage | 33.00 | ton |
| Alfalfa hay | 135.00 | ton |
| Alfalfa-brome hay | 100.00 | ton |
| Haylage | 50.00 | ton |
| Unimproved pasture | 60.00 | acre |
| Improved pasture | 90.00 | acre |
| Soybean meal (48\%) | 0.145 | pound |
| Dried distiller grain | 0.065 | pound |
| Modified distiller grain | 0.04 | pound |
| Lamb supplement/mineral | 0.16 | pound |
| Sow \& pig vitamin/mineral | 0.50 | pound |
| Hog vitamin/mineral | 0.32 | pound |
| Beef supplement/mineral | 0.16 | pound |
| Dairy supplement | 0.12 | pound |
| Dairy salt and mineral | 0.16 | pound |
| Dairy commodities | 0.15 | pound |
| Dairy fat | 0.30 | pound |
| Feeder pig (50 lbs) | 70.00 | head |
| Yearling steer (700-800 lbs) | 1.50 | pound |
| Steer calf (500-600 lbs) | 1.85 | pound |
| Heifer calf (400-500 lbs) | 1.80 | pound |
| Feeder lamb (70 lbs) | 1.85 | pound |
| Operating capital | $9.00 \%$ | year |

## Beef Cow-Calf Investment

1. Breeding herd investment per cow unit

| Beef cow | $\$ 850.00$ |
| :--- | ---: |
| Replacement heifer $(\$ 850 \times 0.20$ head per cow unit $)$ | $\$ 160.00$ |
| Bull ( $\$ 1,800$ divided by 25 cows $)$ | $\$ 72.00$ |
| Per cow unit | $\$ 1,082.00$ |

2. Bull replacement cost per cow unit

Bull cost, minus cull value, divided by cows, divided by number of years

| $\$ 1,800$ | $\$ 900$ | 25 cows | 3 years |
| :--- | :--- | :--- | :--- | :--- |

3. Facilities and machinery investment (50-cow herd) (replacement cost)

Utility tractor (\$18,000 x 25\% cow use) \$4,500
Hay moving equipment $\quad \$ 2,000$
Handling facilities $\quad \$ 3,000$
Fences (\$94.00 per acre x 125 acres) $\$ 11,750$
Feeders and waterers $\quad \$ 2,000$
Total \$23,250
Total investment per cow (50-cow herd) \$465
Depreciation, interest, taxes, insurance @ 14\% annually \$65
